Rest Haven Substantial Completion on Final Phase

What an incredible journey since the Rest Haven Care Home Project first received the green light from the Government of MB in February 2019. The journey involved months of design, tendering of the Project, plus numerous phases of construction, while continuing to provide care to 42 residents on two sites. We are pleased to announce that we have recently achieved substantial completion on the final phase of the construction which primarily involved the retro-fit of the 1984 facilities or the old building.

So what happens now? Since the opening of the new build in May 2022, we have admitted over 70 new persons, bringing our total resident population to over 90.

With the opening of the new entrance and retro-fitted facilities, the main floor of the new facility will now be open to admitting additional residents, until we reach the 143 residents the facility is licensed for.

This brings me to staffing. We were successfully able to hire 102 personnel last calendar year, bringing our staff levels to over 225. In the ensuing months we need to hire 75 additional staff to complete our staffing complement. This will allow us to provide personalized care and supports to 143 residents.

Today, Rest Haven Care Home represents an attractive new small house model design for senior care complete with complementary staffing and support services that will serve as the primary model for Manitoba personal care homes going forward. In fact, we have had numerous communities, owners and operators in senior care tour the new Rest Haven Care Home, as they plan for their own new builds in the near future.

Meanwhile, at Rest Haven we will continue to put on the finishing touches of construction and furthering the feeling of 'home' with the households and the common spaces.

Looking back, we recognize and appreciate the invaluable contributions we have had from you, our community. You have provided support towards honouring

seniors as we provide care within modern, home-like, facilities. This will remain critical as we move forward. Thank-you for your dedication to this cause!
